No comparable offerings last week for a market comparison. Several buyers looking to procure cattle in any way shape or form! Many bought cattle on the video, auctions with a few getting direct feeders captured. Normally slow time on direct feeders in these two regions this time of year as feeders are out on summer grass. All time new highs in the feedlot sector on negotiated cash cattle with dressed sales hitting 300.00. Nebraska weighted average Friday morning for the week was at 299.47 for a steer and 299.79 for heifers! Supply included: 100% Feeder Cattle (100% Heifers). Feeder cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net weights after a 3% shrink or equivalent, with a 8 cent slide > 600 lbs. Livestock reported this week originated from KS.
